EXPERIENCE

Associate Software Engineer

Piramal Finance

Jul 2025 – Present

Bengaluru, India

- **Analytics Central – Unified BIU Portal**

- * Integrated multiple KPI and incentive applications into a unified portal using **Module Federation**, improving maintainability and reducing code duplication.
- * Built and launched the Analytics Central app with **5,000+ Play Store downloads**, improving product adoption and business visibility.
- * Delivered production features end-to-end using **React, Next.js, Flask, MongoDB, PostgreSQL**, and **AWS**.

- **DocAI – Document Extraction & Verification Platform**

- * Developed document extraction and verification workflows using **React, Flask**, and **PostgreSQL**, reducing manual review effort and improving operational efficiency.
- * Optimized the **autosave** mechanism to reduce save latency from **5 seconds to 2 seconds** by improving query performance, debouncing, request queueing, and handling race conditions in the frontend and backend.
- * Enabled a daily user base of **2,500+ members** on the DocAI website with autosave, version tracking, and audit-trail features.

BIU Intern

Piramal Finance

Jan 2025 – Jul 2025

Mumbai, India

- Developed **React** frontend modules and **Flask** REST APIs integrated with **AWS API Gateway** and **S3** for analytics-driven business applications.
- Collaborated with business, data, and engineering teams to design and deliver production-ready analytics solutions.

PROJECTS

RepoMind — AI-Powered Codebase Intelligence & RAG Platform || [Link](#)

- Built a full-stack AI platform for analyzing public GitHub repositories and answering natural-language code questions grounded in source code.
- Developed the backend in **Python FastAPI** for repository validation, file filtering, embedding generation, hybrid retrieval, and citation-backed answer generation.
- Implemented **vector + keyword retrieval** with **Reciprocal Rank Fusion (RRF)** to improve relevance and precision.
- Created a **Next.js** interface for repository analysis, progress tracking, and structured AI responses.

EDUCATION

National Institute of Technology Raipur

B.Tech, Computer Science and Engineering; CPI: 9.14

2021 – 2025

Raipur, India

SKILLS

Languages : Python, JavaScript, TypeScript, C++, SQL

Frontend : React.js, Next.js, HTML5, CSS3, Tailwind CSS, Module Federation

Backend & APIs : Flask, FastAPI, Node.js, Express.js, REST API Design

Databases : PostgreSQL, MySQL, MongoDB, Snowflake

AI / ML : RAG, Embeddings, Vector Search, LLM Integration, Retrieval Systems

Cloud & DevOps : AWS (Amplify, ECS, API Gateway, S3, Glue), Docker, Git, GitHub Actions, CI/CD

Tools : Jira, Confluence, Power BI, Git, Agile/Scrum
